MINUTES

I. Call to Order

Mr. Hunt calls the meeting to order at 11:00 a.m.

II. Roll Call

Roll call is taken by written record, and a quorum is declared present.

III. Approval of Agenda

MOTION by Mr. Neal to approve the agenda; seconded by Mr. Hackney. Upon voice vote, the **MOTION CARRIED** unanimously.

IV. Public Participation

There is no public participation.

V. Approval of Minutes

A. October 24, 2025, Meeting

MOTION by Mr. Hackney to approve the October 24, 2025 minutes as distributed; seconded by Mr. Kupferschmid. Upon voice vote, the **MOTION CARRIED** unanimously.

25 Ms. Heckman arrives at 11:04 a.m.

26 VI. Financial Statements

27 A. FY2025 – 1/1/2025 through 12/31/2025 – not final

28 Ms. Brehob-Riley reports the amounts reported in “Unrealized Balance” column for the
29 member agencies are due to the ortho-imagery assessments shift to deferred revenue at
30 the end of each year. FY2025 is projected to end with revenue exceeding expenditure by
31 approximately \$20,000. This is primarily due to health insurance and audit fees. CCGISC
32 budgeted health insurance for 6 employees, but only 5 utilized the benefit. The FY 2024
33 external audit did not occur in FY2025 as anticipated; these expenses will be incurred in
34 FY2026. In addition, the internal audit fees were lower in FY2025 due to departmental
35 responsibility shifts in the County.

36 Mr. Hackney asks who audits CCGISC.

37 Ms. Brehob-Riley explains that per the IGA, CCGISC is required to use the same external
38 auditor as the County, which is currently CliftonLarsonAllen. Because the Consortium is
39 so closely tied to the County, delays to the County external audit impact and delay the
40 CCGISC external audit. Internal audit duties historically fell to the Auditor’s office, most
41 of these responsibilities were shifted to the newly created Finance Department.

42 **MOTION** by Mr. Toalson to approve the Financial Statement; seconded by Mr. Neal. Upon
43 voice vote, the **MOTION CARRIED** unanimously.

44 B. FY2026 – 1/1/2026 through 3/31/2026

45 Ms. Brehob-Riley reports this is the time of year when expenditure exceeds revenue
46 because membership assessments are not collected until the end of July. She also notes
47 that the fringe benefit percent is historically lower than salaries and wages because
48 CCGISC budgets health insurance for 6 employees, but only 5 utilize the benefit. This is
49 not the case on the FY2026 financial statement; the County negotiated FY2026 insurance
50 rates were much higher than anticipated in the FY2026 budget. This will impact the
51 FY2027 budget; requested membership increases will likely be higher than projected in
52 the 2026 Workplan and Report.

53 Ms. Brehob-Riley also points out the investment interest is low. She reached out to
54 County fiscal staff for an explanation; an explanation has not yet been provided.

55 Mr. Toalson asks why Map & Data Sales have decreased and if that is stopping overall.

56 Ms. Brehob-Riley answers that in FY2025 CCGISC completed approximately \$10,000 in
57 Map and Data Sales. Sales tend to vary depending on the time of year.

58 Mr. Toalson asks if there are large sales that happen.

59 Ms. Brehob-Riley explains there are typically 3-4 larger sales each year. Annual Map and
60 Data sales are typically between \$10,000 and \$12,000 annually.

61 **MOTION** by Mr. Toalson to approve the Financial Statement; seconded by Mr. Kupferschmid.
62 Upon voice vote, the **MOTION CARRIED** unanimously.

VII. Business Items

A. Approval of Fee Schedule Update for the Ortho and Oblique Imagery Acquisition Project

Ms. Brehob-Riley states that with Parkland agreeing to capture the control points, the overall contract cost was reduced by approximately \$9,000. The memo outlines what the updated annual assessments will be over the next 6 years; CCGISC will begin collecting those in July of 2026.

Mr. Hunt asked if the flights have been completed.

Ms. Brehob-Riley responds in the affirmative and states additional details will be provided with the Director's Report.

As a matter of record, she also points out that the while the County and Rantoul are a year behind in their ortho assessment payments, the difference will be paid back by the end of the 6-year agreement.

MOTION by Mr. Toalson to approve the Fee Schedule Update for the Ortho and Oblique Imagery Acquisition Project; seconded by Mr. Kupferschmid. Upon roll call vote, the **MOTION CARRIED** unanimously.

B. Approval of FY2026 Budgetary Adjustment

Ms. Brehob-Riley states that the FY2025 funds earmarked for the FY2024 external audit need to be realized in FY2026 because the audit did not occur in FY2025.

MOTION by Mr. Neal to approve the FY2026 Budgetary Adjustment; seconded by Mr. Hackney. Upon roll call vote, the **MOTION CARRIED** unanimously.

C. GIS Director's Report

1. Ortho/Oblique Acquisition

The project was categorized as "Done Flying" this past week, meaning all imagery was captured. CCGISC was provided early access to the oblique and "standard" ortho-imagery via Eagleview's CloudExplorer online viewing platform. Each member agency Technical Representative will be given administrative access to CloudExplorer.

It will be approximately 3-4 weeks before Eagleview makes the imagery available via a WMTS service and the ArcGIS Pro add-in tool. Delivery of the "standard" ortho tiles are also anticipated in that same timeframe. The certified deliverables are expected within the next 3 or 4 months. Details and updates will be sent out to the agency's Technical Representatives early next week.

97 **2. ArcGIS Enterprise Upgrade**

98 The ArcGIS Enterprise update to 11.5 was successfully complete at the end of 2025.

99 **3. Metadata**

100 We are continuing to add Metadata for the data in CCGISV and CCGISR; staff are making
101 progress and hope to have this done by October.

102 **4. NG-911 GIS Committee**

103 The CCGISC programmer, Kathleen Crombez, became a member of the State's NG-911
104 GIS Committee; this Committee reports to the NG 9-1-1 State Advisory Board. It is hoped
105 Kathleen's contributions will help the State move toward an automated NG 9-1-1
106 workflow tool at a more aggressive pace. As is, using the current workflow tools to meet
107 the State's compliance schedule, staff demands are estimated at 12% of a full-time
108 position or \$14,000 annually. Kathleen's participation should ultimately reduce time
109 spent on this initiative.

110 Mr. Toalson asked what data is provided to the State.

111 Ms. Brehob-Riley responds, address points, street centerlines, and the response zones.

112 **5. General Updates**

113 Ms. Brehob-Riley does not have any significant updates to report on the Address Schema
114 and Website, CCGISC Historic or Right-of-Way Document search projects.

115 Mr. Toalson asks for an explanation of the Right-of-Way Document search project.

116 Ms. Brehob-Riley explains it is a project that is being worked on as time allows. CCGISC is
117 attempting to locate, scan, and draw old right-of-way documents using the grantee-
118 grantor books in the Recorder's office.

119 Mr. Toalson asks if these documents are linked once mapped.

120 Ms. Brehob-Riley confirms. She continues stating this is a long-term project, but
121 understands progress is beneficial to member agencies.

122 **MOTION** to accept and place the GIS Director's Report on file was made by Mr. Toalson and
123 seconded by Mr. Heckman. Upon voice vote, the **MOTION CARRIED** unanimously.

124 Seeing there was no other business, Ms. Heckman adjourns the meeting at 11:20 a.m.

Re: *Proposed FY2027 Budget and Work Plan*

WORK PLAN AND REPORT INITIATIVES

The Work Plan and Report contains a list of initiatives CCGISC staff plan to complete. Many are multi-year initiatives and are carried over from previous years; others were delayed due to staff time demands.

BUDGET SUMMARY

A membership increase of 8%, totaling \$47,274, is requested for fiscal year 2027. This is 4% more than the anticipated increase in the FY2026 fiscal projections. This increase will help cover the large operational and technology increases in FY2027 as outlined in the table below.

Item	Projected FY2026 Costs	Budgeted FY2027 Costs	Difference	Notes
Health Insurance	\$ 82,000.00	\$ 130,320.00	\$ 48,320.00	FY2027 budgeted for 5.5 FTE instead of 6
HRA	\$ -	\$ 2,300.00	\$ 2,300.00	Portion of Health Reimbursement Arrangement (HRA) Consortium is responsible for funding
Lease	\$ 5,493.00	\$ 11,000.00	\$ 5,507.00	FY2027 is first year of lease for space at the Bennett Center
Janitorial	\$ 1,300.00	\$ 2,750.00	\$ 1,450.00	
ESRI Fees	\$ 54,176.00	\$ 65,000.00	\$ 10,824.00	Fees anticipated to increase an additional \$9,000 in FY2028 per ESRI 3-year ramped cost increases
Salaries	\$ 453,796.00	\$ 470,825.00	\$ 17,029.00	Proposed 3.75% to counter inflation and provide a small increase; 2026 COLA was 2.8%, 2027 forecasts are higher
TOTAL	\$ 596,765.00	\$ 682,195.00	\$ 85,430.00	

The membership increase only supports a \$37,500 transfer from the Operating budget (8850-111) to the Capital and Technology budget (8850-112); which is less than anticipated in FY2026 fiscal projections.

At the end of FY2027, it is anticipated the reserves for department 8850-111 (operations) will be \$488,689 of which \$69,386 is restricted while the reserves for department 8850-112 (capital and technology) will be \$79,678. The operational reserves are above the fund balance goal of 25% of the annual budget.

The deferred revenue for department 8850-672 (ortho-imagery) is \$107,389; as previously approved, \$17,899 will be used to offset agency ortho and oblique imagery costs, leaving \$89,490 in deferred revenue at the end of FY2027.

Introduction

This Work Plan and Report provides time estimates and descriptions of services provided in the corresponding fiscal year. Costs associated with these services are supplied in the budget index found in section 3. In addition, two-year labor/service and three-year fiscal projections are provided for reference.

Section 1. CCGISC Tasks

The Champaign County GIS Consortium (CCGISC) tasks are categorized into three groups: 1) core services and support functions, 2) initiatives and 3) technical service contracts. Core service and support functions are fundamental to the operation of the CCGISC. Initiatives are tasks identified by the CCGISC staff and member agencies that improve efficiency, decision-making, communication, and education as well as support on-going operations. Technical service contracts provide GIS-related support to agencies on a contractual basis. Together, these tasks assist in accomplishing the goals set forth in the Intergovernmental Agreement that created CCGISC.

Section 1A. Core Services and Support Functions

Core services and support functions are grouped into five general categories - GIS Data Layers, Consortium Support, Data Distribution, Management, and Education and Training. Anticipated time allocation for each of these categories is found below. Time allocation estimates are based on current and historic allocation data as well as staff input. Narratives are provided for each of the five categories.

Champaign County GIS Consortium <i>Core Services and Support Function Comparison</i>	Previous Year (Weeks)	FY2027 (Weeks)	Explanation

Data Distribution	30.00	30.00	Allocated time remains consistent with previous fiscal year
Management	44.00	44.00	Allocated time remains consistent with previous fiscal year
Education and Training	6.00	6.00	Allocated time remains consistent with previous fiscal year
CCGISC Core Services & Support Functions Total:	205.00	205.00	

Section 1A-1. GIS Data Layers

One of the missions of CCGISC is to provide Consortium members with up-to-date, high quality regional GIS data. To provide this service, it is necessary to **maintain** and **improve** the existing, or “core” GIS data layers.

ANNUAL MAINTENANCE AND QUALITY CONTROL

The performance of maintenance and quality control procedures are methods utilized by CCGISC staff to provide high quality GIS data. Most of the data layers are in constant transition reflective of changes to the features the layers represent. When changes are reported to CCGISC staff, the layers are updated in a timely manner. In addition, quality control procedures are executed to maximize data accuracy.

DATA REVIEW

The top priority of the CCGISC staff is to maintain and refine the core GIS layers, services, and support functions. Data Review includes on-going tasks that require periodic review or refinement including, but not limited to, the items listed below:

- ♦ *Review and Update Enterprise Geodatabase Layers, Tables and Feature Datasets*
- ♦ *Develop/Maintain/Update Workflow and Quality Control Procedures*
- ♦ *Develop and Maintain Web-based Maps, Apps, and Tools*

Section 1A-2. Consortium Support

A basic function of CCGISC is to assist member agencies through the promotion and use of GIS technology and data. To accomplish this function, CCGISC staff assists members with technical support issues and projects. In addition, members receive data updates and mapping applications. CCGISC staff also handle data release requests for the member agencies.

Section 1A-3. Data Distribution

CCGISC is charged with the responsibility of distributing and promoting the use of GIS. To meet this goal, CCGISC utilizes a variety of distribution methods and platforms including, but not limited to, the following:

- ♦ *Tax Map Atlas website*
- ♦ *CCGISC web site*
- ♦ *Document distribution through a web enabled document file server*
- ♦ *Data sales*
- ♦ *ArcGIS Online/Portal applications*
- ♦ *Published Services*
- ♦ *Database Views*
- ♦ *Web mapping applications (Address, Public, Genealogy)*
- ♦ *Enterprise geodatabase connections*
- ♦ *Portal/ArcGIS Online Collaborations*

Section 1A-4. Management

Management includes program and project management as well as database management and server administration carried out by the GIS Director. Program management tasks include the preparation of committee meeting documents and responding to committee meeting requests, budgetary and fiscal tasks, and technology improvement plans. Projects and initiatives are coordinated with the Technical Representative working group. When required, additional working groups are established. Past groups include Sanitary, Addressing, Technology Improvement, and Land use/Property Code.

Section 1A-5. Education and Training

GIS software and applications continually evolve. Education and training are necessary to maintain and improve CCGISC staff skills. The CCGISC typically attend at least one conference each year and are encouraged to research tools that may improve efficiency levels. In addition, webinars, workshops, and other training and education outlets are utilized.

Section 1B. Initiatives

GIS continuously evolves and grows because it provides a wide variety of benefits. Initiatives are tasks identified by the CCGISC staff and member agencies that improve efficiency, decision-making, communication, and education as well as support on-going operations. As initiatives are completed, resulting products are added to the core services.

The new and existing initiatives are listed in the table below.

Initiatives New & Existing	Description
Metadata Creation*	- manual population of layer specific information in CCGISHistoric Enterprise Geodatabase
Website*	- Overhaul CCGISC Website; New logo, etc.
Address Website*	- Overhaul Addressing Interface and Back-end Programming
Next Generation 9-1-1	- Continue to assist the State with an automated Next Generation 9-1-1 (NG911) automated workflow tool through participation on the NG911 GIS Committee
Drainage District Mapping*	- Continue to scan drainage district certified rolls and orders and link files to GIS drainage layer; Track acres and assessments values as attributes when a new drainage assessment roll is filed; develop a quality control script
CCGISC Historic Database*	- Clean-up old historic parcel layers and tables; create a reference guide
Devnet QC Script*	- Write a Script that checks data entry inconsistencies; this impacts the Consortium as entry errors may create problems for views. It is also to limit the distribution of bad data. Examples: Document numbers, dates, etc.
*ROW Document Search (1980 and prior) & Mapping	- Locate, Scan and Map HistoricROW documents (1980 and prior); add document hyperlinks in the TaxParcelROW layer

* Initiatives carried over from previous years

It is estimated that 25 weeks of staff-time are available to work on initiatives in FY2027 – see the *Work Task Section in Table 2A for additional details.*

Section 1C. Technical Service Contracts

Technical service contracts provide GIS-related support to agencies on a contractual basis. In fiscal year 2027, it is anticipated service contracts will account for approximately 10% (\$68,500) of the total Operating Budget revenue. Contractual agreements in FY2027 include the following:

- ♦ *Piatt County*
- ♦ *Douglas County*
- ♦ *City of Champaign*
- ♦ *Urbana-Champaign Sanitary District*
- ♦ *Village of Mahomet*
- ♦ *METCAD*
- ♦ *Village of St Joseph*
- ♦ *City of Urbana*
- ♦ *Village of Savoy*
- ♦ *Vermilion County 9-1-1*

- An 8% membership increase is included in FY2027 budget; projections include a 7% membership increase in FY2028 and FY2029; without increases CCGISC will experience deficit budgets.
- FY2027 Membership Contributions include the Village of St Joseph buy-in fee.
- FY2028 and FY 2029 assumes an increase in renegotiated Technical Service contracts.
- Local Government Reimbursement includes a 7% increase in FY2027 per direction provided by CCGISC Policy Committee to increase the Principal Data Clients (PDC) agreements at the same percentage rate of the membership assessments every two years; a 15% increase is anticipated in FY2029.

- Personnel includes an overall 3.75% salary increase in FY2027
- Assumes a 3.5% salary increase in FY2028 and FY2029
- Assumes a 20% increase in health insurance and 3.5% increase for all other benefits for FY2028 and FY2029

Commodity Notes:

- Commodities assumed to remain relatively stable in FY2027 through FY2029.

Service Notes:

- The increase in Services in 2026, 2027 and 2028 is due to graduated fee increases for the external audit, rent, and janitorial services.
- The *Other* service increases starting in 2026, is a result of a new fee to help fund the County's Health Reimbursement Arrangement account.
- Assumes an annual \$500 increase in IT Computer Services

Capital and Interdepartment Expenditure Notes:

- Interdepartment Expenditure line includes funds transferred to Capital/Technology department (8850-112) to support the anticipated Capital and Technology expenses.
- Please note:** Due to rising operational and technology costs the Operation budget (8850-111) is no longer able to support large interdepartment transfers necessary to cover these expenses. The anticipated increases to revenue supplemented by use of the fund balance will be necessary in the next 3-years should expenses increase as presented.

Re: *Proposed FY2027 Capital and Technology Plan*

FY2027 CAPITAL IMPROVEMENT AND TECHNOLOGY PLAN

OVERVIEW

A Capital and Technology Improvement Plan (CIP) is provided as part of the annual budget process. The proposed CIP outlines capital improvement policies and provides five-year projections for technology related acquisitions and maintenance fees.

FY2027 CAPITAL AND TECHNOLOGY PLAN SUMMARY

CCGISC fund 8850 includes three departments, Operations (8850-111), Capital and Technology (8850-112) and Ortho-imagery (8850-672). Appropriations are transferred to the Capital and Technology department from the CCGISC Operations department (8850-111) based on the CIP. When possible, reserves are set aside for future expenditures. The Capital and Technology department includes a fund balance line item that formally reserves funds for future CIP expenditures.

In FY2027, the total Capital and Technology department expenses are anticipated to be \$104,159. To help cover these and future costs it is proposed that a total of \$92,500 be pushed to the Capital and Technology department in FY2027; \$37,500 transferred from the Operations budget and \$55,000 transferred from the unreserved fund balance.

To fund the annual hardware replacement and technology/maintenance fees for the next five years, the Capital and Technology Fund Schedule anticipates an annual appropriation of \$92,500 from the Operating budget. With this annual allocation along with the FY2026 Capital and Technology reserve balance of \$91,336.50, the CIP payback period calculation is 4.93 years.

Based on the 3-year Operating budget projections supplied in the FY2027 Work Plan and Report, the Operating budget can only support about half of the necessary \$92,500 annual appropriation to the Capital and Technology department. CCGISC has a healthy fund balance that can be used to supplement Capital and Technology purchases in the short-term but long-term strategies need to be implemented to reduce expenses and enhance revenue.

1.0 Capital and Technology Improvement Policies

1.1 PURPOSE

The Capital and Technology Improvement Plan is a five-year plan used to schedule and allocate appropriate funding for technology-related acquisitions, replacements, and improvements including, but not limiting to, hardware, storage, and software purchases. The plan will be updated and approved annually as part of the budgetary approval process.

1.2 GENERAL

The general guidelines used for capital and technology improvements include:

PROTECTION OF INVESTMENT & COST MINIMIZATION: Provide for maintenance of the CCGISC technical assets at a level adequate to protect the capital interests and investments of the member agencies and minimize future maintenance and replacement costs.

MAINTENANCE & REHABILITATION: Provide for adequate maintenance, replacement, and expansion of the CCGISC technical infrastructure.

STAFF RESOURCES: Pursue technology initiatives that can be accomplished with the available staff resources.

1.3 CAPITAL AND TECHNOLOGY BUDGETARY DEPARTMENT

The primary revenue sources of CCGISC include member contributions, technical service contracts, and map and data sales. Each budget year, revenue will be appropriated to the Capital and Technology budgetary department (Fund 8850, Department 112) in accordance with the Capital and Technology Plan. Appropriations to this department will be based on technology costs, life expectancy, and appropriate amortizations over the life expectancy of the technology. When possible, the Capital and Technology Plan will set aside reserves for future technology expenditures. The department will contain a restricted fund balance line-item, formally reserving its fund balance for future expenditures outlined in the Capital and Technology Plan.

The GIS Director is authorized to approve expenditures from Capital and Technology budgetary department.

1.4 PRIORITIZATION

CCGISC does not have the necessary resources to fund all proposed initiatives and/or purchases. The Capital and Technology Plan utilizes the criteria listed below to evaluate the merits of new technology initiatives and/or purchases. Large projects may need to occur in phases that span multiple budget years due to limited funds. New technology initiatives and/or purchases will, whenever possible, be implemented with minimal disruption to “normal” operations.

New projects and purchases shall be prioritized based on the following factors:

IMPACT ON OPERATIONS: Technology purchases needed for the continuation of “normal” operations.

APPROVED TASKS: Projects and/or purchases that comply with approved tasks in the CCGISC Work Plan and Report.

OPERATION & MAINTENANCE EXPENSES: Projects and/or purchases that provide a decrease in CCGISC operating and/or maintenance expenses.

CONTINUITY OF OPERATIONS: Projects and/or purchases that reasonably promote/improve the continuity of operations – the continuation of mission essential functions in the event of hardware or software failure, localized acts of nature, attack-related emergencies, etc.

GROWTH OF CUSTOMER SERVICES: Projects and/or purchases that allow CCGISC to do more for its members/partners and grow its customer base.

The Annual Technology fee includes software maintenance (*ESRI, Microsoft, Adobe*) and base station pass-through funds. This fee increased by \$15,000 in 2027 from the previous year - see the [2026 Capital and Technology Improvement Plan](#) for details. This is primarily due to the ESRI cost increases implemented with their change to a subscription-based licensing model. ESRI implemented a ramped pricing model to allow customers time to absorb the fee increases; the full ESRI increase will be realized in the 2029 budget. A 5% increase in Microsoft licensing is included for years 4 and 5, 2030 and 2031 respectively.

Re: CCGISC/Champaign County Lease Agreement 2027 - 2031

The provided 5-year County/CCGISC lease agreement is for the term January 1, 2027, through December 31, 2031. The agreement follows the same template as 2022 - 2026 agreement. The agreement was reviewed by the City of Champaign Legal Department and suggested changes were included and/or negotiated with the County. A clean and redlined version of final agreement draft is provided for reference; a general explanation of rental costs and fees are provided below.

RENTAL COSTS AND FEES

CCGISC is responsible for rental, utilities, and service (janitorial) fees. Costs for each of these items are based on the size of the leased space. With the move to the Bennett Center, the space of the CCGISC office increased from 995 sq ft to 1,842 sq ft thereby increasing overall costs.

Rent (ARTICLE III)

Includes updated rental rates. The 2027 per square foot rate is \$5.52, which is the same as 2026 per rate. Starting in 2028, the annual per square foot rate will increase by 2% or the CPI-U, whichever is higher. The maximum annual increase is capped at 5%.

Utilities (ARTICLE IV)

CCGISC is responsible for its proportional share of the utilities. This is determined by dividing the actual utility expenses by the building square footage, then multiplying by the square footage of the CCGISC space (1842 sq ft).

Custodial Services and Supplies (ARTICLE XI)

The per square foot rate increased to \$1.45 per sq ft in 2027 from \$1.15 per sq ft in 2026. Between 2021 and 2026, the cost per sq ft only increased by \$.02. Based on actual cost calculation, this increase is reasonable. The annual per square foot rate will increase by 5%.

CCGISC Annual Lease Costs					
Year	Utilities assumes a 5% annual increase	Rent 5% max annual increase	Custodial 5% annual increase	Estimated Total Annual Costs	Estimated Annual Cost per Sq Ft
2027	\$3,000.00	\$10,167.84	\$2,670.90	\$15,838.74	\$8.60
2028	\$3,150.00	\$10,676.23	\$2,804.45	\$16,630.68	\$9.03
